

Electric Hot Water Heater Rebate & Load Control Program

The Butler REC Electric Hot Water Heater and Load Control Program is a program designed to benefit our members by offsetting some of the installation costs of your new Hot Water system along with keeping costs down by controlling our high peak demand costs.

In order to qualify for the Hot Water Heater Rebate you must meet the following requirements:

- Fill out and sign this form and return it to Butler REC
- Provide Butler REC with a copy of the invoice from the contractor.
- Have the system inspected by Butler REC to verify the installation.
- Allow Butler REC to install an Energy Management Device - Free to the member

(We are currently not installing Energy Management Devices at this time and will contact you if program is reinstated)

Name: _____ Account #: _____

Address: _____

Phone #: _____ Daytime #: _____
